

# Full STEAM Ahead at John W. Decas Elementary

March 2017

## This month in STEAM:

Second Grade students are learning about the design process as they complete engineering design challenges such as creating bridges using different types of materials.

First Grade students have been investigating forces and weight as they design cars and planes that can carry a load.

In Kindergarten, students have become engineers in Rhyme Design challenges. They have created a house and car for the crooked man and a larger house for the Old Woman who lived in a shoe.

Draw It!  
I have a tail  
I look like a rainbow  
I can talk  
What am I ?

\*Congratulations to all the students that figured out JELLYFISH for the Draw It in February! Keep up the good work! \*

## STEAM NIGHT!

Wednesday, April 12th

Please join us for a night of STEAM activities that the family can enjoy together.
